

Desktop-Release-build
/_deps/googletest-src
/googletest/samples/sample2.cc

sample2.h

string.h

```
graph TD; A["Desktop-Release-build  
/_deps/googletest-src  
/googletest/samples/sample2.cc"] --> B["sample2.h"]; B --> C["string.h"]; A --> C;
```

The diagram illustrates the dependencies of a source file. At the top is a grey box containing the file path: Desktop-Release-build /_deps/googletest-src /googletest/samples/sample2.cc. A blue arrow points from this box to a white box labeled sample2.h. Another blue arrow points from sample2.h to a grey box labeled string.h. A final blue arrow points directly from the top box to the string.h box, indicating that the source file also depends on the string.h header.
