

Desktop-Release-build
/_deps/googletest-src
/googletest/samples/sample3
_unittest.cc

```
graph TD; A["Desktop-Release-build  
/_deps/googletest-src  
/googletest/samples/sample3_unittest.cc"] --> B["sample3-inl.h"]; A --> C["gtest/gtest.h"]; B --> D["stddef.h"];
```

The diagram illustrates the file dependencies for the source file `sample3_unittest.cc`. It is a directed graph with four nodes. The root node, `sample3_unittest.cc`, is a dark gray box at the top. Two blue arrows point from it to `sample3-inl.h` (a white box) and `gtest/gtest.h` (a light gray box). A third blue arrow points from `sample3-inl.h` to `stddef.h` (a light gray box).

sample3-inl.h

gtest/gtest.h
