

build/\_deps/googletest  
-src/googlemock/include  
/gmock/gmock-more-matchers.h

```
graph TD; A["build/_deps/googletest<br>-src/googlemock/include<br>/gmock/gmock-more-matchers.h"] --> B[ostream]; A --> C[string]; A --> D["gmock/gmock-matchers.h"];
```

The diagram illustrates the inclusion of the `gmock-more-matchers.h` header file. The top box represents the source location: `build/_deps/googletest-src/googlemock/include/gmock/gmock-more-matchers.h`. Three blue arrows point from this box to three separate boxes below: `ostream`, `string`, and `gmock/gmock-matchers.h`, indicating that these components are included or linked by the source file.
