

cmake-build/_deps/googletest
-src/googletest/test/production.h

```
graph BT; A["cmake-build/_deps/googletest  
-src/googletest/test/gtest  
_prod_test.cc"] --> C["cmake-build/_deps/googletest  
-src/googletest/test/production.h"]; B["cmake-build/_deps/googletest  
-src/googletest/test/production.cc"] --> C;
```

A diagram showing two source files at the bottom pointing to a header file at the top. The top box is shaded gray and contains the header file path. The bottom-left box is white and contains the source file path for gtest. The bottom-right box is white and contains the source file path for production. Two blue arrows point from the bottom boxes to the top box.
